Six weeks Online Training
On
Python/Java/Web Designing
(20 June 2022 –29 July 2022)

Head of Department
Dr. S.K. Gupta

Co-ordinators
Mr. Gureshpal Singh
Ms. Ritika

Organized by:
Department of Computer Science &
Engineering
Sardar Beant Singh State University,
Gurdaspur -143530
Punjab

Introduction:

Java is a simple and yet powerful object oriented programming language. Java was given birth at Sun Microsystems, Inc. in 1991. Java was conceived by James Gosling, Patrick Naughton, Chris Warth, Ed Frank, and Mike Sheridan at Sun Microsystems, Inc. It was developed to provide a platform-independent programming language.

Course Contents:

- An overview of Java,
- Data Types, Variables, Arrays
- Introduction to Classes,
- Inheritance, Exception Handling
- Swings
- Multithreaded Programming,
- Networking, The Applet Class,
- String Handling, Advance Java

Python has elegant syntax and dynamic typing which together with its interpreted nature, makes it an ideal language for scripting and rapid application development in many areas like machine learning, game development, web development and business applications.

Course Contents:

- Introduction to Python
- Python control flow statements
- Function and modules
- Exception handling
- File handling
- Classes and objects
- GUI in python

Web Designing course is designed to start you on a path towards future study in web development and design, no matter how little experience or technical knowledge you currently have.

Course Contents:

- Introduction to HTML
- Formatting tags
- Designing web pages
- Table and Form tag etc.
- Using Java Script in web pages
- Cascading Style Sheets (CSS)
